

ÜKS STANDARD, PALJU TEENUSEID

TEDI kasutuses

Näited teenustest, kus TEDI on kasutusel ühtse disaini- ja arendusalusena. Iga teenus toetub TEDI komponentidele, mustritele ja juhistele, tagades kasutajatele järjepideva kogemuse eri avalike digiteenuste üleselt.

TERVISEJUHTIMISE TÖÖLAUD

TEDI toetab järjepidevat ja ligipääsetavat kasutuskogemust ka andmerohketes tööriistades.

Haldab TEHIK koostöös Tervisekassaga.
Arenduspartnerid: Net Group, Nortal, Industry62.

HEALTH MANAGEMENT WORKSPACE

TEDI supports a consistent and accessible user experience even in data-heavy tools.

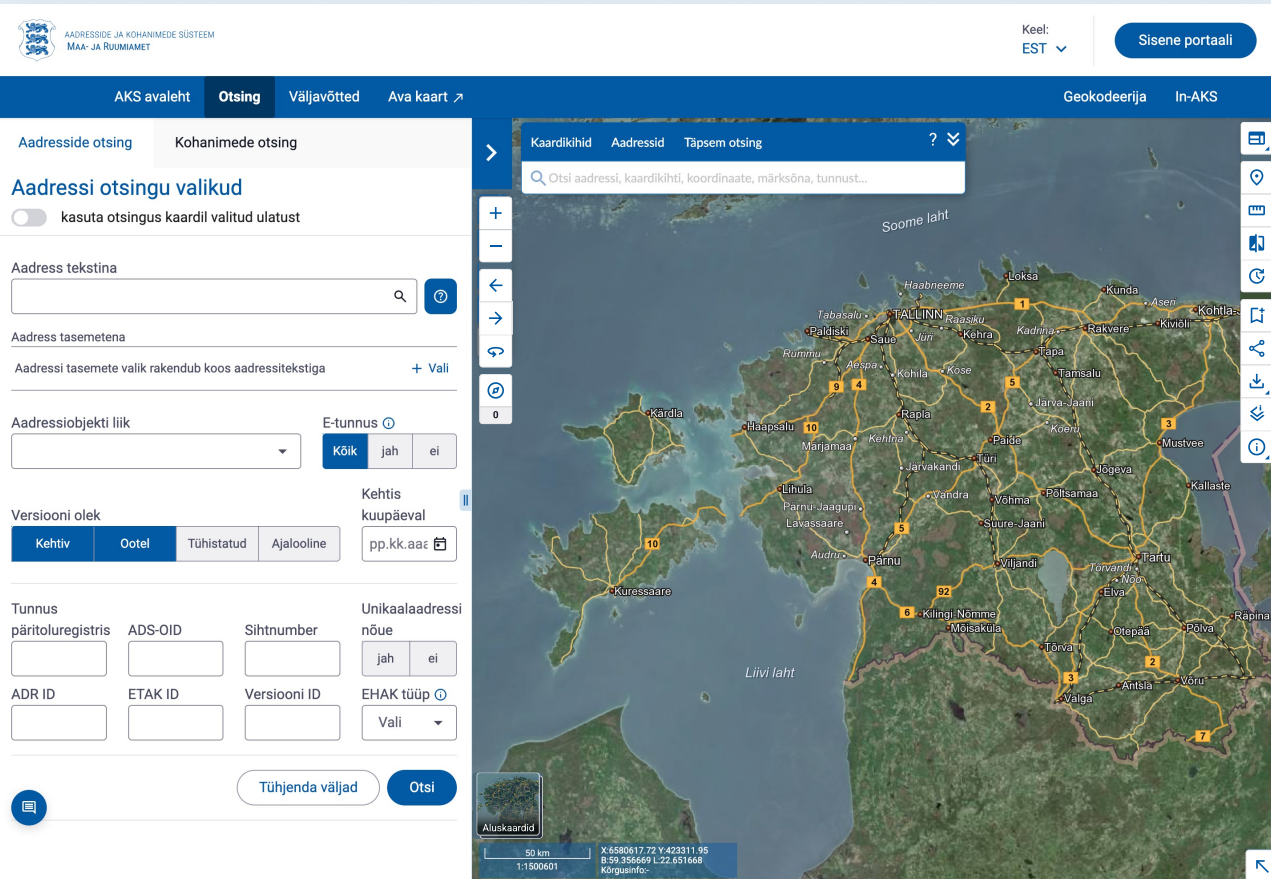

Managed by TEHIK in cooperation with Tervisekassa.
Development partners: Net Group, Nortal, Industry62.

ONE STANDARD, MANY SERVICES

TEDI in use

Examples of services that use TEDI as a shared foundation for design and development. Each service is built on TEDI's components, patterns, and guidelines, giving users a consistent experience across different public digital services.

AADRESSIDE JA KOHANIMEDE SÜSTEEM

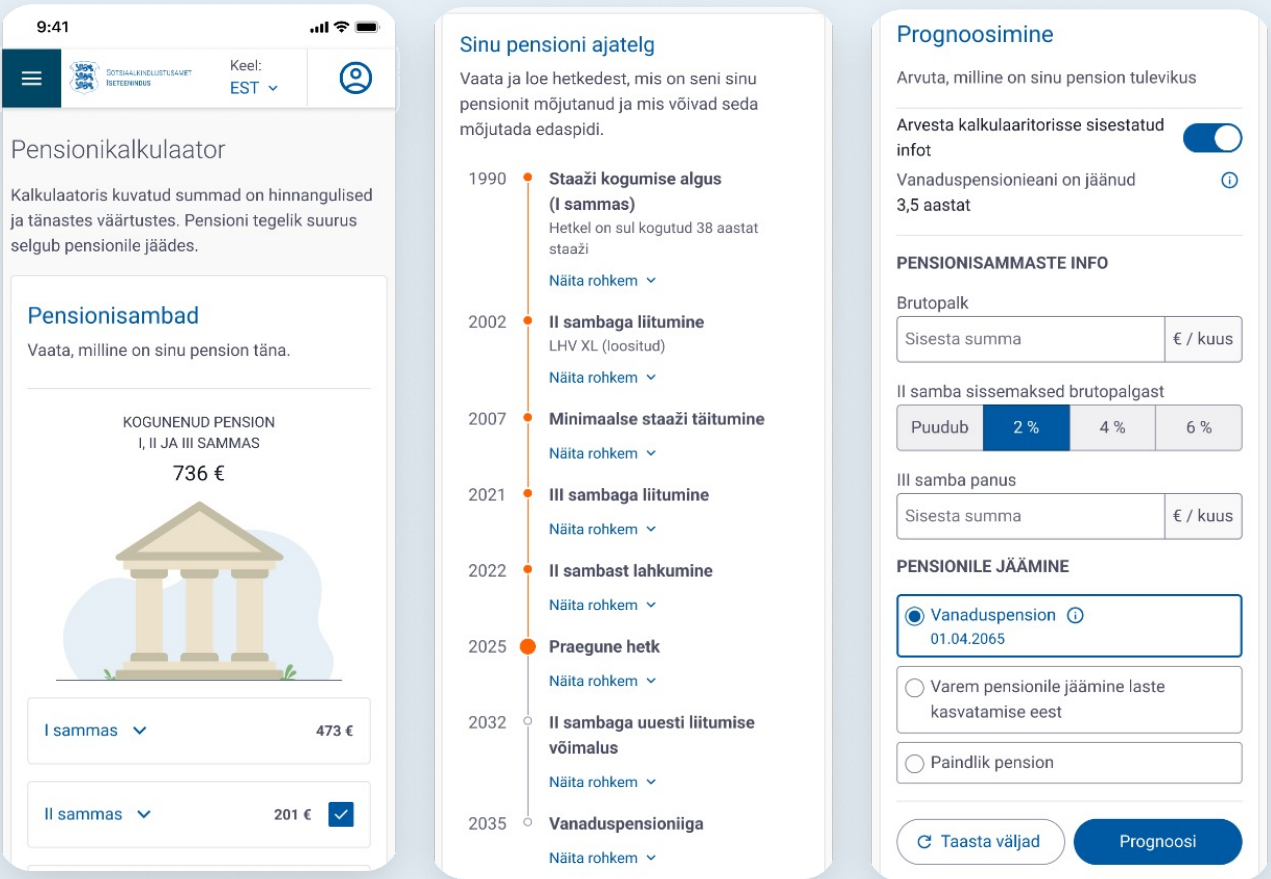

Aadresside ja kohanime süsteemis on kasutusel TEDI kaardikomponendid, mis muutuvad Eesti riigiüleseks standardiks.

Haldab Maa- ja Ruumiamet.
IT partner: KeMIT. Arendaja: AS Datel.

ADDRESS AND PLACE NAME SYSTEM

The Address and Place Name System uses TEDI's map components, which are becoming Estonia's national standard.

Managed by Maa- ja Ruumiamet.
IT partner: KeMIT. Developer: AS Datel.

PENSIONIKALKULAATOR

TEDI toetab Pensionikalkulaatori arenduses kiiremat ja järjepidevamat arendust.

Haldab ja arendab TEHIK koostöös SOMi ja SKAga.

PENSION CALCULATOR

TEDI supports faster and more consistent development of the Pension Calculator.

Managed and developed by TEHIK in cooperation with SOM and SKA.
